

## Issues

#	Project	Tracker	Status	Priority	Subject	Assignee	Target version
1348	Babeltrace	Bug	New	Normal	Assertion failure when passing `smalltrace` CTF test trace twice to convert command		Babeltrace - stable 2.0
1346	Babeltrace	Bug	New	Normal	sink.ctf.fs: Assertion failure while encoding length FC of dynamic array FC embedded within a static array FC		Babeltrace - stable 2.0
1345	LTTng-modules	Bug	New	Normal	NULL pointer dereference when adding perf:cpu:cache-misses context		
1261	LTTng-modules	Bug	New	Normal	Missing filename field on first openat() syscall		
1244	LTTng-tools	Bug	Resolved	Normal	lttng clear hangs on empty and active session		
1179	Babeltrace	Bug	Resolved	Normal	Crashes when using lttng-live with a per-pid session in Babeltrace 1.5		
1240	Babeltrace	Bug	Resolved	Normal	Can't write plugins solely with `--enable-python-plugins`	Francis Deslauriers	Babeltrace - stable 2.0
1231	Babeltrace	Bug	Resolved	Normal	AddressSanitizer detects a global buffer overflow when we iterate over plugin .so descriptors		Babeltrace - stable 2.0
1236	Babeltrace	Bug	New	Normal	SIGTRAP in glib found during fuzzing		Babeltrace - stable 2.0
1225	Babeltrace	Bug	On pause	Normal	src.ctf.lttng-live: `sessions` query error reporting		Babeltrace - stable 2.0
1222	Babeltrace	Bug	New	Normal	src.ctf.lttng-live: reading two per-pid traces does not emit messages		Babeltrace - stable 2.0
268	Babeltrace	Feature	Invalid	Normal	Add equal/compare function for bt_ctf_iter		
1206	LTTng-tools	Bug	New	Normal	live per-pid channel with short lived app becomes unusable		
1190	LTTng-UST	Bug	Resolved	Normal	lttng ust statedump unreliable when used with taskset		
1096	Babeltrace	Bug	New	Normal	Babeltrace takes 100% CPU and 100% mem reading a malformed trace		
1181	LTTng-tools	Bug	New	Normal	Deadlock in session daemon and consumer for short lived apps in live per-pid		
1130	LTTng-tools	Bug	Resolved	Normal	Possible event name duplication using --probe and --function		
1113	LTTng-modules	Bug	Resolved	Normal	Ringbuffer looping when kernel pagefault event and userspace callstack context enabled	Francis Deslauriers	
1107	LTTng-modules	Bug	Resolved	Normal	Null pointer dereference on boot with built-in lttng-modules		
1087	LTTng-UST	Bug	Resolved	Normal	Python Bindings are not removed on make uninstall on Ubuntu 16.04		
1075	LTTng-tools	Bug	Won't fix	Normal	Filters tests failing with Babeltrace 1.2.1 and LTTng-Tools master		
1073	LTTng	Bug	New	Normal	Filtering test cases failing		
319	Babeltrace	Bug	Resolved	Normal	Iteration to the end of the trace followed by a seek_begin returns a null pointer on reading		
1066	LTTng-tools	Feature	New	Low	Add option for lttng-destroy to delete the trace folder		Wishlist
