

LTTng-modules - Feature #279

configure and trigger manually statedump and metadata dump

06/20/2012 02:53 PM - Julien Desfossez

Status:	New	Start date:	06/20/2012
Priority:	Normal	Due date:	
Assignee:	Julien Desfossez	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
for snapshot, we need to have the statedump and metadata dump configurable by the user. we also need to be able to trigger the metadata dump multiple times.
