

LTTng-tools - Bug #815

ltnng-relayd without \$HOME fails silently

07/02/2014 12:40 PM - Julien Desfossez

Status:	Resolved	Start date:	07/02/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2.3		
Description			
<p>When launching ltnng-relayd without arguments from a init script (tested with upstart on Ubuntu 14.04 and systemd on Arch), everything seems to work fine, but the traces are never written anywhere and the user does not know about it.</p> <p>It seems we end up in this error : "Error: Home path not found." But the user does not receive any error message. Tested on v2.4.1 and v2.5.0-rc2.</p> <p>Starting the relay with -o works fine.</p> <p>Upstart script to reproduce : description "LTTng 2.x relay daemon"</p> <pre>start on local-fileSYSTEMS stop on runlevel [06] respawn exec ltnng-relayd</pre>

Revision 04135dbd - 07/10/2014 08:02 PM - David Goulet

Fix: add a get HOME dir fallback to getpwuid

If the \$HOME or \$LTTNG_HOME is not defined, fallback on getpwuid(3) of the process uid.

Fixes #815
